India

- Rajasthan: Setting and smooth functioning of COVID control rooms
- Delhi: Supporting community surveillance activity
- Assam MP: Capacity building of health service providers amid evolving changing guidelines with roll out of self-training
- UP: Providing PPE kits to health service providers

- WISH Foundation India will continue supporting the government of Rajasthan, Delhi, Assam MP and UP in their COVID 19 guidelines for Infection, Prevention and Control (IPC) and Social Distancing Norms.

- A tele-medicine pilot project with under a tripartite agreement between AIIMS, Bhopal, NHM MP and WISH was initiated. This is a hub and spoke model where, AIIMS will be the hub and 50 PHCs in 4 districts will be the spokes. Specialist services in gynaecology, paediatrics and general medicine will be covered in the pilot phase.

- In the Maternal Health division, a technical subcommittee was formed that conducted meetings and investigated health service providers in twenty-three UPHCs and in a DH and Mahila hospital in Gorakhpur districts were provided with personal protective equipment (PPE) kits.

- Health service providers in twenty-three UPHCs and in a DH and Mahila hospital in Gorakhpur districts were provided with personal protective equipment (PPE) kits.

- In the Maternal Health division, a technical subcommittee was formed that conducted meetings and investigated 12 covid positive obstetric cases. This was facilitated by WISH team.

- WISH provided support and facilitated the establishing and operationalizing E-Sanjeevani OPD primarily for Non COVID cases.

- Capacity building: 755 Health workers and 211 ASHAs were trained on care of COVID symptom cases.

- Digital Health Initiative: 0.1 million over consults and diagnostic was provided through telemedicine/POCDs:

- Surveillance & Contact Tracing: Of the 4.1 million members surveyed through home visits, over 16,181 cases were found to have influenza like illness (ILI) symptoms and 0.15 million were found high risk cases.

- Dehagaon PHCs of Raisen district.

- This was inaugurated by the Health Minister of Madhya Pradesh on August 18, 2020 at Salamatpur and was acknowledged and applauded, we at WISH stand committed to government’s efforts and the will to fight the pandemic is unprecedented effort by the government and the involvement of the citizens to embrace new measures. As relaxations to lockdown is gradually unfolding, we must be realistic in dealing with the challenge of learning to live with coronavirus. We need to make the necessitated preventive measures a part of our lives through the process of behavioral change. The dramatic spread of COVID-19 with 2.39 million cases till August 15, 2020, has disrupted lives, livelihoods, communities and business pan India. Behind these statistics is a great deal of pain and suffering. Though, India is doing fairly well with 70% recovery till August 15, 2020. Unarguably the two unarguably the two

- Uttar Pradesh: Creation of isolation ward in the smart clinics of 47,033 and 18,675 healthcare staff attended online trainings and webinars at the district, block and sub block level for Covid 19, training was undertaken in 10 districts.

- Uttar Pradesh: In the health sector, WISH has actively supported the Department of Health and Family Welfare in strengthening of health facilities, capacity building of health workers and strengthening of COVID control rooms.
